

NetAlly AirCheck™ G3 PRO – Customer Prospecting Emails

September 2022

SEQUENCE 1: FOR CURRENT AIRCHECK G2 OWNERS (#1 of 2 Email Sequence)

[Subject] Upgrade available – Your NetAlly AirCheck™

Email #1

Have you heard? NetAlly just announced the [NEW AirCheck™ G3 Pro!](#)

The industry's favorite Wi-Fi tester has been completely updated for Wi-Fi 6/6E and much more! Fully redesigned with new hardware and software, the rugged AirCheck G3 Pro provides connectivity testing, accurate provisioning, and effective monitoring of the new Wi-Fi protocols and frequencies, in addition to all legacy Wi-Fi technologies.

Key differences to the older, now outdated AirCheck G2 are:

- **Full visibility of Wi-Fi 6 and the 6GHZ band** – with its native Wi-Fi 6/6E radio, the AirCheck G3 tests, surveys, monitors, and connects at actual Wi-Fi 6 data rates, and captures Wi-Fi 6 data frames
- **Short-term monitoring** – trend graphs show you how the wireless network environment changes over time, and provides visibility for roaming analysis
- **Added analysis capabilities** – AirCheck G3 Pro features network discovery, path analysis, and topology mapping in Link-Live™
- **Remote Analysis** – Remote engineers can now troubleshoot and collaborate with on-site technicians using remote control via Link-Live, reducing the need for travel
- **Extended battery life** – Added capacity and efficiency delivers more than 2x the run time (10 hours!) and half the charge time of the AirCheck G2 to get more done, faster!

Of course, the new AirCheck also features the AirMapper™ app for fast and easy site surveys for this latest technology and frequencies.

AND, there is an upgrade offer for current AirCheck G2 owners with AllyCare™ support for 10% off!

For more information about the upgrade or to arrange an online demonstration, discuss your specific needs, or send more information. Let me know!

Thanks,

[name/contact info]

NetAlly AIRCHECK G3 PRO with Wi-Fi 6/6E – Customer Prospecting Emails

September 2022

SEQUENCE 1: FOR CURRENT AIRCHECK G2 OWNERS (# 2 of 2 Email Sequence)

[Subject] Your AirCheck™ G2 - Important

Email #2

I'm reaching out again as you are an owner/user of a NetAlly AirCheck™ G2.

NetAlly just announced the **new AirCheck G3 Pro** which is capable of full Wi-Fi 6/6E operation.

The AirCheck has been fully updated with new hardware and software to ensure connectivity, provisioning, and monitoring of the new Wi-Fi protocols and frequencies, in addition to all legacy Wi-Fi technologies, AND adds a host of new features with more than DOUBLE the battery life of the AirCheck G2.

IMPORTANT: There is an upgrade offer for current AIRCHECK G3 PRO owners with support for 10% off!

For more information about the upgrade or to arrange an online demonstration, discuss your specific needs, or send more information. Let me know!

Thanks,
